Withdraw from EigenLayer

info All funds unstaked from EigenLayer will go through an escrow period before being eligible to be fully withdrawn. Step 1: Navigate to the Unstake tab, enter your withdrawal amount, and clickNext .

Step 2: ClickConfirm when prompted by your wallet. Once the transaction confirms, you should see your Restaked balance move to Unstaking.

Step 3: Your withdrawal is now in escrow. Wait for the escrow period to complete.

Step 4: Once the escrow completes, you'll see the balance under Available to withdraw. ClickWithdraw to finalize the process. Previous Restake LSTs Next Testnet Native Restaking
