L2Faucet

Faucets distribute small amount of tokens on testnets, typically by requiring users to complete tasks or verification of their social accounts.L2 Faucet , which is backed by Proof of Machinehood, allows users to receive tokens simply by attesting their device.

Access over 17 testnet tokens supported across 13 different networks with a single attestation.

If you are a project or chain looking to run a faucet in a way that is accessible and provably fair, get in touch .

Arbitrum Sepolia Testnet

Attest your device to get Arbitrum ETH tokens directly on Arbitrum Sepolia faucet without bridging. Drip Arbitrum testnet tokens on L2 Faucet without social verification or third-party downloads.

Base Sepolia Testnet

Attest your device to get Base ETH tokens directly on Base Sepolia faucet without bridging. Drip Base testnet tokens on L2 Faucet without social verification or third-party downloads.

Holesky Testnet

Attest your device to get testnet tokens on Ethereum Holesky. Drip testnet tokens on Holesky for staking, infrastructure and protocol development on the Ethereum testnet.

Kroma Sepolia Testnet

Attest to get Kroma ETH tokens directly on Kroma Sepolia faucet without bridging. Drip Kroma testnet tokens on L2 Faucet without social verification or third-party downloads.

Mode Sepolia Testnet

Attest to get Mode ETH tokens directly on Mode Sepolia faucet without bridging. Drip Mode testnet tokens on L2 Faucet without social verification or third-party downloads.

Sepolia Testnet

Attest your device to get testnet tokens on Ethereum Sepolia. Drip testnet tokens on Sepolia for decentralized applications, smart contracts, and other EVM functionalities on the Ethereum testnet.

Scroll Sepolia Testnet

Attest your device to get Scroll ETH tokens directly on Scroll Sepolia faucet without bridging. Drip Scroll testnet tokens on L2 Faucet without social verification or third-party downloads.

Taiko Holesky Testnet

Attest your device to get Taiko ETH tokens directly on Taiko Holesky faucet without bridging. Drip Taiko Katla A-6 testnet tokens on L2 Faucet without social verification or third-party downloads.

opBNB Testnet

Attest to get tBNB tokens directly on opBNB faucet without bridging. Drip opBNB testnet tokens on L2 Faucet without social verification or third-party downloads.

Optimism Sepolia Testnet

Attest your device to get Optimism ETH tokens directly on Optimism Sepolia faucet without bridging. Drip Optimism testnet tokens on L2 Faucet without social verification or third-party downloads.

USDC Testnet

Attest your device to get USDC testnet tokens directly without bridging. Drip USDC tokens on testnets including Ethereum Goerli, Avalanche Fuji, Optimism Goerli, Base Goerli, and Polygon Mumbai.
