

Hey everyone, I am excited to share that we are now accepting Nominations for the GMX Listing Committee. The [initial post](#) provides more information about the role. Interested candidates can submit their nominations below this post, following the provided template.

Compensation:

Members of the Listing committee will receive an honorarium for their roles. The proposed honorarium is \$1000 per month. Nominees from Labs are waiving receipt of this honorarium as they are already indirectly compensated and aligned with the GMX DAO through contributor agreements.

The nomination period will be open for approximately 3 weeks, starting on August 15th and closing around September 5. Following this, we will have a one-week Snapshot vote period to determine the composition of the Listing Committee.

Nomination Template:
