

I was looking for more applications of NFTs apart from proving legal right on land, properties, etc in physical world and recently Shaan Puri sold an NFT for 5 minutes of interview presence.

twitter.com

Shaan Puri (ShaanVP)

Most NFTs today follow the same "copy pasta" playbook.

- pick an animal (apes, penguins, lions etc.)
- autogenerate 10,000 variations
- try to sell it as the next big thing (get rich quick)
- and give 'exclusive access' to a discord

I wanted to do something different..

This seemed interesting. Can be used by CoE to raise fund. Think of an accelerated proposal request from the NFT owner or an interview with the CoE that all must attend.
