

I was thinking of how to classify the blockchain stack and one way that I thought makes sense beyond L1/L2 thinking was as below:

[Medium – 19 Jul 18](#)

The Blockchain Stack

Co-authored by Alexis Gauba

Reading time: 3 min read

Other interesting classifications I have seen are

<https://www.tik.ee.ethz.ch/file/74bc987e6ab4a8478c04950616612f69/main.pdf>. What might be other considerations or things I'm missing in thinking about it?
