

# Updates

- During July, Dewiz attended the EthCC conference in Paris where we got to bond as a team, meet new contributors and also establish better communication with partners that helped us make progress on several topics.

## Learnings

- Through out our work with spells, we've learned some of the quirks that one can only realize when going down into the mud of spell testing. Check out our [Deep Dive into MakerDAO Spell Test Suite Part 1: Execution Costs](#)

## Executives

- In July Dewiz provided support to the following executive:
- Reviewer role for [July 14th](#)
- Reviewer role for [July 14th](#)

## Endgame work stream:

- The Endgame Yield Farms are fully audited. Integration testing with other modules and dapps in the end game is under discussion.
- We've delivered technical consultancy on RWAs to further inform the [Allocation System](#) that is being implemented for the endgame.

## Collateral onboarding & Stability Scope:

- Andromeda:
- The MultiSwapConduits module was successfully audited and deployed in the July 14th executive.
- The operator

received a guide on how to operate this new conduit.

- The MultiSwapConduits module was successfully audited and deployed in the July 14th executive.
- The operator

received a guide on how to operate this new conduit.

## Protocol Engineering Scope - Governance Security Engineering Work PM

- We continue providing project management services on Smart Contract Audit topics to the EAs in the Maker Ecosystem, as well as business liaison with our partner ChainSecurity in terms of auditing resources allocation and billing.
- During July, we performed an assessment on other technical tooling usage and happiness, with great results. This is informing discussions with the vendor on how can the EAs get the most out of it and extend the knowledge across the teams.
- Liaison among EAs and Technical Consultancy services were delivered on bug reports from [Immunefi](#)
