

There is no doubt that the LINK Marines are the biggest supporters of Aave with more than 30 millions LINK locked up, both in v1 and v2.

Recently, Linkpool as a leading Chainlink Node provider just changed their token model to ERC-20, for a reason that Linkpool could easily integrated into other DeFi platform.

More on the ERC-20 conversion:

[Medium – 26 Mar 21](#)

Staking App v2 and Token Migration

It's been a long time since we gave an update to the LinkPool staking platform since its launch in late 2018. That's not to say we stopped...
