

I am Agnes, the community manager of ArbitrumNewsDAO (ANDAO). I have been working for ANDAO for 3 years. Since we operate on a donation-based model and do not charge our service recipients, our funding has always been tight, and we have been without income for quite some time.

After team discussions, we decided that each team member would independently participate in the DIP v1.5 to secure the necessary survival income. This way, we can continue to sustain ANDAO's operations without compromising its original mission.

I will share my all opinions about voting here. Thanks for delegating your ARB to me and I will be responsible for it!
