

Hi Sam,

Great news that implementation is tomorrow, I have a couple of questions surrounding this.

I'm fairly sure you have covered some of these but I felt it might be useful to have questions and answers in one place.

With staking live from cyber Monday and gas rebates not kicking in for approx 3 weeks post then, does that mean stakers will be receiving enhanced dividends for that period (I. E. the gas rebate value will go to stakers and its not going to sushiswap users)?

How/where do we stake fold tokens?

Is there a minimum time limit to staking?

How do stakers receive their dividends?

Thanks!
