

Hello, Ape holders!

I am conducting a small survey to gain insights into the perspectives and motivations of \$APE holders. The survey consists of 8 straightforward questions and should only take a couple of minutes to complete.

By participating in this survey, you will be contributing valuable information to the broader DAO space as well as ApeCoin DAO. Your answers will help shed light on the reasons why individuals hold tokens within DAOs and the expectations they have.

Feel free to select multiple answers that align with your thoughts on ApeCoin.

Note: I have submitted this survey as an AIP idea because I believe it would be advantageous to move the survey to the Snapshot voting. By doing so, we can encourage greater participation from the APE holders and obtain a more representative understanding of token holder perspectives.

- I am holding \$APE as an investment
- I am holding \$APE for specific utility within the Ape ecosystem
- I expect profits from holding \$APE based on the overall success of the Ape ecosystem
- I do not expect profits from holding \$APE, and I view it as a utility token
- The value of \$APE depends on the success of the Ape ecosystem
- The value of \$APE depends on my own actions, not the Ape ecosystem
- I believe any profits from holding \$APE will come from the efforts of the ApeCoin DAO, Yuga Labs, or other third parties
- I believe any profits from holding \$APE will come from market forces and not the efforts of any specific promoter or third party
