

Hello UNI World \o/,

New into UNI since 3 weeks, I am really suprised there is not a lot of articles about our favorite crypto in the Google news.

Also, on Twitter, there are only 5 posts since the beginning of the year (!?) And I can't even find an official Uniswap account on Instagram ...

A good visibility could help us to grow the UNI holders number, so why hiding ?

A lot of crypto competitors use the airdrop in return of the "follow official account on twitter" for exemple.

In short, to be seen more could help the UNI community.

Have all a nice weekend !

Ben.
