

Hello Everyone,

As part of the RWAIG, we(DoDAO) have conducted research and compiled documentation aimed at simplifying the understanding of real world assets for developers interested in building within this space.

Our research is published here: [Chained Assets Research](#)

On December 2, we will be hosting an introductory session to discuss asset classes, target markets, and regulations that are crucial for RWA developers. You can find the session details here: [Session Details](#)

This event has already been added to the Arbitrum Calendar.
