

If you're a \$MKR token holder, please vote in favor of including \$UNI as a collateral type. Currently this proposal is in the "polling" stage of Maker's governance process, next it will move into an "executive" vote where another round of voting will commence.

Vote [here](#)

The proposed initial system parameters for UNI (Uniswap) are:

- Stability Fee: 3%
- Liquidation Ratio: 175%
- Debt Ceiling: 15 million DAI
- Auction Lot Size: 50,000 DAI
- Minimum Bid Increment: 3%
- Bid Duration: 6 hours
- Max Auction Duration: 6 hours
- Liquidation Penalty: 13%
- Dust: 500 DAI
