

# Watch list

The following example is created using the [Optimism Blockscout instance](#) . Sign up for email notifications for different actions related to an EOA or contract address. This can include incoming/outgoing transactions for native tokens, ERC-20 tokens or NFTs like ERC-721 and ERC-1155s.

1) Login to My Account in Blockscout [login instructions](#)

. From the Watchlist menu click Add address.

?

2) Fill in information including:

- Address
  - : 0x address of the EOA or contract to watch.
- Private tag
  - : For your reference, will be displayed as a private tag for your Blockscout instance when you are logged in (emoji's accepted )
- Notification types
  - : Select which types of transactions you would like to receive email notifications for. These include native tokens (in this case ETH), ERC-20 tokens, and NFT tokens.
- Email Notifications
  - : Select to receive.
- Add address
  - : Click button to add to your watchlist.
- 

?

3) A new address along with an info overview will be added to your watchlist dashboard. You can edit info, remove, or add more items.

?

4) Click the address to view in the Blockscout console. Watch list addresses show the private tag when logged into My Account.

?

5) If selected, you will receive emails based on actions completed by this address.
