

title: Freeze RENFIL for Aave V2 ETH Market

status: Proposed

author: 3SE Holdings, [@oneski22](#)

created: 2022.11.21

Given the [winding down of Ren 1.0 Network](#) the authors advise the Aave DAO to freeze the RENFIL reserve.

Freezing the reserves will allow for withdrawals, debt repayments and liquidations to continue, while blocking any new borrow positions or new supplies.
