

[Secret Network Gets a Secret API!](#)

Chain of Secrets just launched the Secret API for Secret Network as part of our developer community on-boarding efforts. We hope to connect and collaborate with all kinds of secret app builders!

Chain of Secrets has launched the Secret API for Mainnet! This article gives a quick overview of the components and links to SecretJS, a typescript client, a python SDK and an article on building Secret Apps that walks through the awesome Secret Voting app written by [@taariq](#).

We'll be evolving the Secret API to include other language SDKs (let us know if you have one in mind!) and incorporating the latest and greatest modules such as compute

and secret20

.

Post here with questions or feedback!
