

# Portfolio Navigational Chart

When navigating to the portfolio page you will see all your positions for all the pairs you have liquidity deposited to. If you want to view positions held for a specific pair you can view those by loading the pool on the Markets Explorer (see [Market Explorer Navigational Charts](#)).

The first step before you can use Liquidity Terminal is to connect your wallet (see image 1).

?

Once you have connected your wallet to Orca the Markets Explorer display will change (see image 2).

There are six key sectors, numbered in the image below. Let's continue on downward as we voyage through the Liquidity Terminal.

?

## 1. Side Navigation Bar

The side navigation bar will remain visible as you move between pages in the Liquidity Terminal.

There are four components (image 3)

?

1. Hamburger button
2. (☰): toggles the Side Navigation Bar
3. compact form, leaving more room for other features.
4. Page menu:
5. move between the pages of the Liquidity Terminal
6. (Markets
7. [Portfolio](#)
8. [Create Pool](#)
9. [Rewards](#)
10. ) as well as select More
11. to discover... well... more about Orca!
12. My Crypto:
13. shows the assets in your wallet.
