

[@amplify.admin](#)

I just reviewed the [working group elections announcement](#) and noticed a discrepancy.

According to [AIP-239](#) and the [Ape Assembly mandate guidelines](#), the AA is the only entity that should be doing these votes - not the ApeCoin community as a whole. Says so, right here:

“The \$APE Assembly was formed to facilitate Steward elections for all Working Groups except for Governance. This shrewdness also gathers to discuss and address some of the more conceptual Meta-Governance issues facing our DAO

.”

If the announcement is deficient in making this clear, please update the announcement accordingly so that it's clear that these elections are exclusively

via the Ape Assembly.
