

Hi Guys, just want to know the community's interest about adding stablecoin HUSD on AAVE.

Since the proposal has been discussed, details can be checked here:

Proposal: Add Support for HUSD stablecoin

[Proposal: Add Support for HUSD stablecoin](#) [Governance

]/(c/governance/4)

I noticed that the forum has updated new categories, but I can't change the tag from governance to Asset Risk, as I can't edit this post. Maybe I need the help from administrator. Thank you.

Here is the poll:

Should HUSD Be Listed on Aave?

- For, HUSD can be listed now.
- For, HUSD can be listed later, when more market proof validated
- Against: Don't list HUSD.
