

Optimistic Oracle

This section showcases different design patterns for building contracts that integrate with the UMA Optimistic Oracle v3. These include:

- [A quick start tutorial](#)
- showcasing the simplest possible OOV3 integration contract.
- Building example contracts:
 - [Prediction market](#)
 - [Insurance contract](#)
 - [A generic data assertion framework](#)
- *
- A description of [Escalation Managers](#)
- and how they can be used.
- Deploying [sandboxed oracle environment](#)
- for testing the dispute flow.
-
