

Hello,

I am proposing a moderate extension for ApeCoin claim. The extension only valid for those that were holding an unclaimed token PRIOR TO THE INITIAL DEADLINE. I unfortunately missed the cut off and I'm sure there are many others. I feel the negative impact on individuals that weren't able to claim is much larger then positive impact of having the ApeCoin go to the EcoSystem Fund.

Perhaps a one or two week extension could be voted on by the community.

Ape help Ape.

Community is the real strength.

My story (short version):

I just finished moving (last night landed) from south america to north america and was hoping to get a dog for the claim as it was very important funds for me, but I didnt get a chance to scrape together the eth for a dog. I couldnt see the timer because i don't have metamask on my phone and figured there would be an announcement in the BAYC discord under announcements. I did not realize ApeCoin was completely separate from BAYC. I do follow ApeCoin on twitter, but again had no idea they were separate and did not see the announcement.

Today was first day I had my cold storage in hand after the move and went to claim only to find out i missed by a few hours.

This would be a big help to me and I'm sure many others in the community.

Thank you!
