

Sovereign Finance AVC is glad to announce that next Wednesday, October 4th, at 3 PM UTC will hold an out of schedule meeting with [@Allan\\_Pedersen](#) from Monetalis Clydesdale.

As you may already be aware, SEED Latam is firmly committed to ensuring transparency in funds management. In our [Q3 Aligned Scopes Proposal Document](#) we stated that in the weeks leading up to the quarter's conclusion, several proposals have emerged on the forum that aim to raise the bar on transparency and providing better and more straightforward tools for MKR holders to stay well-informed about the RWAs.

Among these, we found the new Policies, Procedures and Guidelines (PPG) shared by Monetalis Clydesdale particularly interesting as a tool to make their work "as transparent, streamlined and clear as possible"

For this reason, we extend our gratitude to Allan, who has agreed to join us in a public call during which he will explain the essence of these new PPGs and answer to all the questions from the audience.

We invite all those interested in participating in the call to read the following forum posts and then post their questions or concerns in this thread, so that they can be addressed next Wednesday:

[Clydesdale Tool: Policies, Procedures & Guidelines](#)

[Clydesdale PPG: Transaction, Account & Authorisation Standards](#)

[Clydesdale PPG: Asset and Reallocation Standards](#)

The meeting will take place 2023-10-04T15:00:00Z

in the [Discord's Voice Channel of Sovereign Finance AVC](#).

We extend the invitation specially to [@Aligned\\_Delegates](#) , [@AVC\\_Member](#) and all Ecosystem Actors.

Please we kindly ask [@Nix](#) if you could add this meeting to the Maker's Discord agenda.

See you there!
