

It has come to my attention that AIP authors don't know when their AIP will move from AR to LIVE:

AIPs that have been tagged with Needs Administrative Review for the Special Council to determine if clarification or further actions are required before moving to a vote.

Proposals that have gone through the proposal process and set to vote at ApeCoin DAO Snapshot Space: Snapshot

I am running a poll, to get community feedback on if you think they should be informed 1 week in advance before their AIP moves to LIVE, hence is put to vote on the ApeCoin snapshot. This can help them plan their schedule for the period their AIP goes up to vote.

Should AIP authors be informed 1 week before their AIP goes LIVE?
