

Solana wallets

Supported wallets:

- [Phantom Wallet](#)
- [Backpack Wallet](#)
- [Magic Eden Wallet](#)
-

In order to create a bid with a Solana wallet, first make sure you are either using a browser with a supported wallet extension installed or you are using that wallet's built in mobile browser.

1. Navigate to clusters.xyz
2. and click "Connect" in the header
- 3.

?

Note: If you are already connected to an Ethereum wallet, disconnect your wallet first.

?

1. If you have a supported wallet's extension installed, you will see an option for "Solana". Click that and confirm in your wallet.
- 2.

?

1. Once you are successfully connected, you should see your wallet with the Solana logo in the header
- 2.

?

1. Click on "Create Bid" in the header and follow the instructions.
- 2.

?
