

Updated Time Line

Due to delays in the compliance process and the addition of 13 more protocols being funded via snapshot votes after council feedback, we have delayed the start of incentives until June 3rd. All LTIPP protocols must complete the compliance process by May 31st, or they will forfeit their LTIPP grant.

Updated Bounty Process

We are preparing to start the LTIPP research bounty process. To streamline the process, the LTIPP workstream is proposing an updated selection format for the bounties. The details of these changes can be seen [here](#).

Updated List of LTIPP Funded Protocols

87 Protocols will be funded in LTIPP for with a total incentives cost of 30,709,389 ARB.

The remaining 14,290,611 ARB of the 45M incentives budget will be returned to the Arbitrum DAO treasury by the LTIPP multisig
