

# Powered by Raydium

Raydium offers an avenue for evolution, where projects and individuals can swiftly enter the Solana and [OpenBook universe](#) to leverage distinct advantages in speed and efficiency. Faster transactions, significantly lower fees, and ecosystem-wide liquidity are essential for DeFi to evolve. As Raydium progresses as a foundation for liquidity, it aims to partner with other DeFi and Solana communities and provide support to build out new platforms on Solana. This will lead to both additional liquidity and faster, more efficient DeFi protocols for everyone. If you're looking to launch or build out and supercharge features of your platform on Solana, Raydium can help and would love to [talk partnership](#) ! If you're interested in listing your project on Raydium, please fill out [this form](#) !

If you're interested in any other form of partnership, please fill [this form](#) ! [Previous Claim Portal](#) [Next- Learn more Litepaper](#)
