

Hi All,

There has been a lot of discussion over AIP-5 Staking and caps per NFT, however there has been little discussion over the content of AIP-4 Staking Process

and the clarifications received in the medium article that is linked in the proposal.

Update: Ape Staking AIPs Explained

With voting for ApeCoin DAO officially open, I'd like to provide a brief overview of AIP-4 and AIP-5, which were proposed by Animoca...

Therefore I have raised this topic to discuss AIP-4, please raise any concerns with the AIP-4 content. If your concerns are with AIP-5 only then please consider the proposals by both [@maariab](#) and [@yatsiu](#) to approve AIP-4 so that work can start on the staking mechanism.

There's been a lot of discussion on AIP-5 and how staking rewards should be calculated, allocated, and who can participate.

But in general it seems like there's consensus that staking is good for \$APE. I support approving AIP-4 while we figure out staking specifics. <https://t.co/ajOECjYV4K>
