Simple Summary

If you can't explain it simply, you don't understand it well enough. Provide a simplified and layman-accessible explanation of the CIP.

Motivation

The motivation is critical for gathering support within the community. Please explain how your CIP is intended to advance CoW DAO and / or CoW Protocol, and how it's aligned with CoW DAO's values.

Specification

The technical specification should describe the syntax and semantics of any new feature. The specification should be detailed enough to allow for it to be reasoned about by participants in the CoW DAO.

Rationale

The rationale fleshes out the specification by describing what motivated the design and why particular design decisions were made. It should describe alternate designs that were considered and related work. The rationale may also provide evidence of consensus within the community, and should discuss important objections or concerns raised during discussion.

Execution

Safe Transaction Data

Mandatory for every proposal that requires transaction from CoW DAO.

<payload>

Tenderly Simulation

Mandatory for every proposal that requires transaction from CoW DAO. Link to Tenderly simulation

Snapshot

Phase 2 Proposal: Add a link to the corresponding CoW DAO Snapshot poll you've created.[Edit this page](#) [Previous Governance Process](#) [Next Multisigs](#)
