Introduction and Experience

The Aave Protocol Embassy (APE) serves as the official representative of the Aave DAO within the Arbitrum Ecosystem. Our primary role is to voice the collective opinions, ideas, and concerns of our community members, ensuring they are heard and addressed in the broader context of the Arbitrum Ecosystem. APE is deeply committed to building strong relationships and collaborations between our respective ecosystems.

Why APE

Arbitrum has positioned itself as a critical player in the Ethereum Layer 2 space, and APE believes that by leveraging our experience as the official representative of the Aave ecosystem, we can contribute significantly to its continued growth. We focus on governing responsibly whilst ensuring the Aave community's voice is amplified within the Arbitrum ecosystem.

As the official embassy for one of DeFi's most successful protocols, APE has a unique perspective on advancing governance and building strong processes that protect DAOs while fostering clear, actionable participation.

Community Engagement

APE has extensive experience in representing the Aave community across various DeFi protocols. We emphasize transparency and process integrity, ensuring all participants have clear guidelines to follow. Our active participation in cross-ecosystem initiatives has earned us a reputation for reliability and impact, and we intend to bring the same level of engagement to Arbitrum DAO.

We understand the importance of maintaining close relationships between communities, and we will provide regular updates on our voting rationale, initiatives, and other governance-related activities to ensure complete transparency.

Proposed Delegate Initiative

As Arbitrum DAO delegates, APE aims to ensure sustained growth while maintaining Arbitrum's mission of scaling Ethereum. Our focus will be on building strong governance synergies between Aave and Arbitrum, promoting alignment between Arbitrum DAO and the broader DeFi ecosystem, with a particular focus on Aave's interests, and facilitating knowledge transfer from Aave's governance experience to strengthen Arbitrum.

Public Acceptance

We are fully aligned with Arbitrum DAO's mission and values, and our focus will remain on supporting initiatives that align with its long-term goals of providing faster and cheaper transactions while maintaining Ethereum's security guarantees. Simultaneously, we will ensure that the interests of the Aave community are well-represented in all decisions.

Waiver of Liability

By delegating to APE, you acknowledge that APE will participate on a best-efforts basis and will not be liable for any damages related to participation in the Arbitrum Protocol or this DAO.

You can delegate to APE using the following address: 0xa9e777D56C0Ad861f6a03967E080e767ad8D39b6
