

Nitrogen testnet

[Nitrogen](#) is the first testnet and L3 made with [Celestia's Arbitrum Nitro integration](#) hosted by [AltLayer](#) .

Learn more in [Altlayer's documentation](#) .

Getting Started with Nitrogen

[Find chain information, RPCs, contract addresses, bridging information, blob poster address, and more on AltLayer's Nitrogen testnet page](#)

(<https://rollup-info.altlayer.io/public/nitrogen>).

Nitrogen tokens

The easiest way to obtain Nitrogen tokens is to [visit the faucet and select "Nitrogen Testnet \(Arbitrum Orbit + Celestia"](#) .

You can also find a guide with more details in [Altlayer's documentation](#) .

Optional: Bridging tokens

Alternatively, you can [use the Arbitrum bridge](#) to bridge from:

1. Arbitrum Sepolia (L2) to Nitrogen (L3)
2. Sepolia (L1) to Arbitrum Sepolia (L2) to Nitrogen (L3)

Details for how to use the bridge to Nitrogen can also be [found on the Nitrogen page](#) . [\[\[Edit this page on GitHub](#) Last updated: [Previous page Deploy an Arbitrum rollup devnet](#) [Next page Deploy a smart contract on Arbitrum rollup](#) [\]](#)
