One sentence summary of idea

: Today, we don't yet know much about Otherside, but it is certain that the ApeCoin DAO must have its place, and offer activities in this Metaverse in the future !

So we need our headquarters !

At least 1-2 paragraphs of description

: We don't yet know everything about the future possibilities on Otherside, despite the fact that in the last few weeks we have more and more information about the possibilities for each of the Lands (resources, sediments, vessels, etc.)

BUT one thing is certain, we know that the exchange currency will be ApeCoin.

As the best representatives of ApeCoin, ApeCoin DAO must be present on Otherside in a symbolic way by having its own property.

Steps to implement

:

My example here is Land #22

but of course it could be another one.

(22 in relation to 2022, the year ApeCoin was born)

- 1. Select the appropriate land : Discussion with the members of the Discord WG0 / thank-ape chanel, of the criteria for choosing the Land

(location, for example not too far from the center and therefore from the Clubhouse)

- 1. Buy/Add this land in a dedicated ApeCoin DAO Wallet

- 1. Provide communications related to Otherside news, in order to onboard more and more members to ApeCoin DAO. It will be a great communication tool.

- 1. Start working on the possibilities through a group of invested members of the ApeCoin DAO, why not the Working Group dedicated to the Metaverse?

Cost

: depending on the choice of the Land.

If we retain the idea of a central location...

- Currently, you can find about twenty lands located in the 999 closest to the center, for a budget of about 20 ETH.
- Even better, if we want to have a position on the central island of the Clubhouse (just under 350 lands), there are 5/6 Lands available for a budget of around 55 ETH.

If you like this idea, please add a comment, we will have the opportunity to talk about it in order to define the selection strategy for this future Land to create our headquarters there.
