Taiko Tuesday

is a community-driven bi-weekly newsletter covering the ins and outs of Taiko, a decentralized Ethereum-equivalent validity rollup.

Let's get into it!

Testnet status

- Total transactions: 5,549,610.
- Total blocks: 1,719,226.
- Average block time: 3.8 seconds.
- Total wallet addresses: 796,866.
- Total unique provers: 4,630.
- Total unique proposers: 9,287.

More stats: <https://explorer.jolnir.taiko.xyz>.

Development updates

You can follow the changelogs to see what's been happening in the Taiko development department. There are two changelogs: The [Taiko client](#) and the [Taiko-mono repository](#).

Community updates

- Taiko Grants Cycle 2 has launched! \$30M is up for grabs for community builders, established partners, and anyone who wants to work on tasks specified by Taiko Labs. More [here](#).
- [Galxe campaign: Christmas edition](#).
- Newest changelogs [released](#).
- Taiko is hiring! Check out the open positions [here](#).
- We did a Twitter space with Vitalik, protolambda, and Brecht on multi-proofs. Check it out [here](#)!
- Another Galxe [campaign](#): Create a Wallet, Mint a Domain, Take a Quiz.

Education updates

- Text
 - We published an [article](#) introducing the Based Contestable Rollup (BCR) framework. This framework is going to be the foundation for the next testnet.
 - We published an [article](#) introducing the Based Contestable Rollup (BCR) framework. This framework is going to be the foundation for the next testnet.
- Audio
 - [AMA with Omni Network](#).
 - [AMA with CryptoRank](#).
