

Abstract

Two or three sentences that summarize the proposal.

Those among us with advanced understanding of economies should meet periodically to review indicators and track the health of the \$APE economy

Motivation

A statement on why the APE Community should implement the proposal.

The distribution of advanced macroeconomic understanding is likely to be within the range of that in the general population. Those of us with specialized domain knowledge in currency economies should work to educate the larger community and make considered suggestions for policy

Rationale

An explanation of how the proposal aligns with the APE Community's mission and guiding values.

We want this experiment to survive long enough to learn something, so we should say something when we see drastically reckless moves, and we should track indicators to measure the trend in order to validate the changes the community makes

Key Terms (optional)

Definitions of any terms within the proposal that are unique to the proposal, new to the APE Community, and/or industry-specific.

Please let me know if any of the words I used require definition.

Specifications

A detailed breakdown of the platforms and technologies that will be used.

Just a simple discord channel to start. We can talk about tech for tracking indicators and reporting results once we identify the group

Steps to Implement

- Call for volunteers
- Agree on meeting platform
- Agree on time to meet
- Commune on schedule and goals
- Propose options for action
- Commune on course of actions
- Act
- Repeat

[Start typing here]

Timeline

Relevant timing details, including but not limited to start date, milestones, and completion dates.

I would classify this as an existential requirement, so yeah, the sooner the better.

Overall Cost

The total cost to implement the proposal.

TBD
