

Dear Uniswap community,

I'm Arnold, Founder at <https://lighthouse.cx/>

At Lighthouse, we're focused on making governance more effective. We have dedicated iOS/Android apps and a push platform for community leaders.

We've identified Uniswap as one of the more active communities in this space, and we're excited to share our product with you.

With Lighthouse, you can follow the Uniswap space in our mobile app to stay informed about the latest proposal updates. You'll receive push notifications whenever new proposals are created, and you can even vote from within the app if your mobile wallet supports WalletConnect.

At the time of this writing, there is an upcoming proposal that will be ready for vote tomorrow. We encourage you to download the app to see how easy it is to vote while on the go!
