

Hello ApeCoin DAO Community,

It is our pleasure to announce that, pursuant to the passing of [AIP-310](#) and [AIP-311](#), DAO members staking their ApeCoin on BendDAO or ParaSpace may now use that ApeCoin to vote on Snapshot.

If you have ApeCoin staked on BendDAO and/or ParaSpace, no action from you is needed on either site; all you need to do is head over to Snapshot and cast your vote. However, please note that delegating your ApeCoin for Snapshot voting is unavailable for these protocols at this time.

If you have any additional questions, please feel free to contact the [@facilitators](#).

Kind regards,

-ApeCoin DAO Community Discourse Facilitators
