

Proposal Name

ABSTAIN 101 & ITS MANY MISCONCEPTIONS

Abstract

Hide the ABSTAIN results from displaying prominently on snapshot user interface (UI),

Author

Description

Concerned DAO member FURIOUS ANGER.

Motivation

The abstain results are prominently displayed on snapshot's UI; I believe they influence the way votes are being cast. This is unfair as abstaining voters may be encouraging an outcome unknowingly.

Rationale

Since special council decided to ABSTAIN from voting I noticed this added a large amount to the abstain field, which is a very impactful visual at multiple millions, especially due to the order it will show now (heaviest vote count gets top spot). This information was/is certainly not public knowledge, and I believe without this context community members are being unduly influenced by this ever burgeoning ABSTAIN count displayed.

Steps to Implement

Few clicks of the mouse, possibly 10-15 minutes, maybe DAR would post a reply if this were incorrect.

Timeline

24-36 hours after vote conclusion.

Overall Cost

Costs ZERO dollars (because we have people employed who are paid to complete these tasks).

Proposals submitted to the AIP Ideas category can be vague, incomplete ideas. Topics submitted here are not required to be submitted as a formal AIP Draft Template, however, you may still use the [template](#) if you wish.
