

Genesis of Fellowship group:

During April 2024, members of our group all attended different contributor sessions hosted by [ArbitrumDAO Onboarding](#). After a couple of weeks, we were placed in this group to tackle Ecosystem Mapping from an Arbitrum DAO perspective.

We have met once on our own accord, and have the broad mandate for formalizing a group objective and deliverables should we find the working group well positioned to add value to the DAO. We aim to do so by advancing ArbitrumDAO through an organized ecosystem mapping capacity.

Composition:

Our ArbitrumDAO | Ecosystem Fellowship Group is composed of 7 people from 4 countries, and currently working to establish sub-working groups. [@aminiman](#) is the Gandalf of the group which helps organizes our volunteer efforts.

Objectives:

At present, we are following the guidelines of the Fellowship, and performing basic analysis of what is currently being done for Ecosystem Mapping, internally and externally. We are scheduled to meet at least 5 times minimum over the course of 2 months to propose formal objectives for the group. At the end of the 2 months, we are expected to draft at least 1 proposal to add value or disband the group. Any proposals should be vetted by at least 3 delegates.

Meetings

The group has regular meetings w/ the following virtual meeting details: <https://meet.google.com/umq-ingt-fkb>. At present for Tuesdays, our meetings moving forward will be on Wednesdays at GMT 4 (or 11AM EST). We will use this time to help initiate sub-groups and provide updates to keep each other accountable for deliverables.

Meeting Notes:

We will use the comments section below to relay our meeting summaries for reference.

Next steps:

Over the next couple weeks, each team will be providing updates from our respective sub-groups at our weekly meeting. We aim to wrap up our respective tasks by June in advance of our 5th meeting when the fellowship concludes.

What can you do to help:

Please help us with contacts/introductions, including links and docs.

Just to make sure we are exhaustive in our outreach, please put anyone you know in those capacities in touch with us. You can start by mentioning them in this thread.

Additionally, feel free to respond to this thread with specific alpha and resources for us to get this group off to a great start.
