

The LEGO subDAO has been running for more than 1 year. Most of the Council members are well known and quite active on the forum. Each of them has left their TG account on [this page](#). But I can't find any introduction of the nominees members beside a [wallet list](#). I think they also have the duty to introduce themselves to all the communities, making sure that they can be connected. And they also should let the community know how they have contributed to the LEGO subDAO.
