

# Pricing

This pricing will be effective starting from 1 June 2024. Before then, the current pricing of a 10% surcharge on mainnet transactions for the verifying paymaster will be in effect.

Below is a comparison of the different pricing plans available for Pimlico. With Pimlico, you're able to launch without any upfront costs, and only pay for what you use with our pay-as-you-go plan, even for production applications with significant volume. We can also offer enterprise plans for users wishing to have a custom plan tailored to their needs. If you have any questions, please don't hesitate to [contact us through telegram](#) or [through email](#)
