

We would like to submit this AIP idea to gauge the community's desire for it.

This proposed solution is already a reality, as we have pieced together several key components:

1. We have partnered with a Web3 financial super app with proprietary software and ecosystem that boasts a user base of millions.
2. We have engaged a fully licensed, bonded, and insured Trustee in Hong Kong, a Web3-friendly common law jurisdiction.
3. We have engaged licensed partners for the issuance of a credit card that will support the direct spending of \$APE across over 90 million global merchants with appropriate hardware and software.

Benefits of being an ApeCoin Credit Card holder:

- No Annual Fees
- No Minimum Token Staking Requirements
- No Fees on \$APE Conversion at Spending
- No Monthly or Annual Spending Limit
- Merchant Rebates or Discounts when using the \$APE Card

ApeCoin has been described as a "currency for culture, gaming, and commerce intended to promote a decentralized community growing at the vanguard of web3."

By introducing the ApeCoin Credit Card, we not only make \$APE spendable across global merchants like any fiat currency but also provide a platform for the community to engage with both online and offline worlds through collaborations and partnerships.

Enabling \$APE to be used as a spendable currency not only increases the velocity of transactions but also takes the first step towards "closing the loop" in facilitating payments.

With the ability for all ApeCoin holders to spend \$APE at a majority of global merchants, we can work together as a community to bring unique benefits and discounts to the ApeCoin ecosystem, thereby creating sustainable demand and desire for \$APE.

As Elite Apes, a community of 150 members holding over 700 Yuga NFTs and \$Apecoin, we are eager to take this bold first step and offer all \$Apecoin holders an opportunity to venture beyond the digital realm into the real world.

Let's assume that this idea is already feasible, which it is. We would like to hear from the community before we finalize and submit our draft. Please let us know your thoughts.

## **Yes / No ??**

Proposals submitted to the AIP Ideas category can be vague, incomplete ideas. Topics submitted here are not required to be submitted as a formal AIP Draft Template, however, you may still use the [template](#) if you wish.
