

Hi,

I am not sure if this is the right place to post this discussion subject. However, after circulating around the UNI community Forum for the past weeks, it is not clear to me how the Development team and the UNI Governance work\function together.

Is there even common goals?

It may appear to me that there is some disconnect, but I may be wrong. I am just trying to understand how those two “entities” interact and reach common goals.

Ultimately, the UNI community was formed because the development team wanted to.
