

Kagan and the Fox Labs team have shipped an initial version of their Trading Journal application. The current version can be accessed here:

dydxtradingjournal.app

[Best Free Online Crypto Trading Journal | dYdX](#)

Unlock your trading potential with stats and performance data to help you improve your trading.

The team have also published the code used to build this application. If you wish to run your own instance of the app, instructions can be found here:

Contribute to Fox-Labs-Digital/dydx-journal-webapp development by creating an account on GitHub.

Give it a go and share your thoughts! We encourage everyone to share feedback below so the team can continue iterating on the product to maximize community adoption.

In terms of feedback, we are open to all thoughts but recommend using the following format:

1. Initial Impression
2. What did you like about the application?
3. What could be improved?
4. Are you likely to continue using it?
5. If no, what's missing?

Let us know what you think!
