AD Buffer Updates

The following table displays the payment amounts to each delegate for this month and their AD Buffer status at the end of

the month. Note that while the implementation is manual, the Max AD Buffer size will be scaled based on the amount of time they have spent as PD/RD for the month, e.g. if someone has spent the entire month as a PD, their max buffer size will be equal to the max PD payout, if they've spent 10 days as a PD, their max buffer size will be pro-rated to $(10 / n) * \text{buffer size}$, where n = number of days in the month. There are potential griefing attacks if this method is not used.
