

Currently the DAO is corrupt, the board should be immediately removed and the cartan group should be fired for breach of contract. They are attempting to state a vote pursuant to the contingency in AIP-1 to allow for a vote to remove a board member is now contradictory to AIP-1 when it is literally a part of AIP-1. That is so convoluted and foolish I can't even begin to explain how corrupt it is. My proposals to allow the community to vote to remove a board member are not making changes to AIP-1 as AIP-1 was not a vote on the current board members and in fact states that this vote should be aloud.
