

## Rodeo Finance Grant Bi-Weekly Update

Date: Jan 10, 2024

### I. Executive Summary:

#### a) Roadmap Progress

- Leveraged GM farms audited, tested and ready to launch publicly
- Rodeo expanding Camelot integration with V3 leveraged farms under audit
- Rodeo testing first of several Vault products
- Integration with D2 Finance for upcoming Rodeo++ Vault

#### b) Milestone/KPI Achievements

- Rodeo has successfully completed the tasks set forth in Milestone 1
- Independent Audit of GM Farms Strategy and Oracle Implementation
- Paladin Sec Audit Completed
- [Audits - Rodeo Finance](#)
- Independent Audit of GM Farms Strategy and Oracle Implementation
- Paladin Sec Audit Completed
- [Audits - Rodeo Finance](#)

#### c) Dune Dashboards

- Analytics page will be built after the finalization of incentive distribution / claim page and smart contracts are finalized

### II. Current Progress:

- Smart contracts and dApp page are in progress to allow users to view their accumulation of incentives and claim
- GM farms are ready to deploy live, we are waiting the dispersion of next phase of grants from GMX to launch in tandem with incentives
- Lending Pool Incentives (to boost available liquidity for GM farms) - 20,000 ARB
- GM Farm incentives (dynamically adjusted for time in vault) - 30,000 ARB over 3 months
- Lending Pool Incentives (to boost available liquidity for GM farms) - 20,000 ARB
- GM Farm incentives (dynamically adjusted for time in vault) - 30,000 ARB over 3 months
- Partner integration with D2 Finance to go live with the launch of GM farms and GMX ARB incentives

### III. Community Engagement:

- The community has been following the audit progress closely. Great interest has been expressed from both community and partners for the launch of GM farms
- Analytics have not started until the distribution of incentives happens (so we can gauge the impact of the incentives)

### IV. Partnerships and Collaborations:

- Rodeo will be officially kicking off our long term partnership with D2 Finance for the Rodeo++ vault. D2 will deploy up to 75% of the Rodeo++ Vault TVL to Rodeo's GM leveraged vaults, complemented by a mix of convex and directional hedges, or direct allocation to ETH++ for the remaining balance.
- Rodeo is in discussions with several new partners in the RWA and cross-chain sectors to advance our yield strategies and offerings
- We are further expanding existing partnerships with Sushiswap for their Sushi Bonds, Bond Protocol and JonesDAO for Rodeo liquidity solutions for users and POL
