

What a game .... Now what if it was ape or skate . Head on , best moves wins . A pool party in back ground , along with that, in background the ship that is in a replay so you can see what's going on from a distance or just grab your binoculars to see up close , and above is another game you can watch from the pool or ship or while skating . Crazy light shows , banana eating contest , strength challenges to beef up your ape for game play plus an ape spinning apetastic music not to mention the dance moves wow

. Just food for thought . I am happy to be here and I hope I'm not out of line here . Just being creative , as I'm new and trying learn and help anyway I can
