

Hi everyone,

Writing today to let you know I'll be stepping down from my post as Head of People Ops for the Secret Network Foundation at the end of the month. My family and I are welcoming a 3rd bundle of joy and it's time I hang up my crypto hat for a bit to commit to my most important job.

In the time here at Secret I have met some of the most brilliant and kind people. The technology and philosophies behind Secret are what keep me in this space, and I look forward to staying on top of Secret's progress and see where the new DeCC narrative and our incredible team and partnerships take us.

In my time here I witnessed tons of changes: new team structures, a slow but eventual positive shift in community sentiment, the new DeCC narrative, a complete re-brand, tons of new partnerships, insane volatility in the market, and one thing remained: a hard working, dedicated team and an enthusiastic, committed community. I feel confident in what we have going here and hope you all stay in touch on the Telegramz: @cryptohmeg

Thanks for giving me the chance to come in and put my own spin on the organization. I look forward to serving the crypto community again sometime in the distant future.
