

Navigate the Query Editor

How to navigate the query editor

In this guide, we'll provide an overview of the Dune Query Editor and its features.

Left Sidebar

- Query Explorer: Search and locate relevant content for your query.
- Data Explorer: Discover the necessary data tables for your projects.
- [Version History](#)
- : Review the query's edit history and, if required, revert to a previous version.
- Settings: Adjust setting for your query.

Double-click any icon to collapse or expand the sidebar.

Central Editor

This is your main workspace. Here, you can:

- Write SQL commands.
- View query results.
- Design visualizations.

Additionally, the bottom-left corner houses icons that further enhance your editing experience.

Right Sidebar

This section offers a suite of functionalities:

- Schedule queries.
- Materialize query results.
- Download results as CSVs, and more.

With these tools at your fingertips, navigating the Dune Query Editor becomes a breeze. Happy querying!
