

Hello, Everyone.

I have been reading a lot about arbitrum recently, such as x, forums, tally, snapshots, and learned some things about arbitrum governance, LTIPP, ARDC, ADPC, and I am also sorting out some arbitrum-related projects...

Now I want to participate more deeply in the arb ecosystem, so I want to know if there are any community meetings that I can attend.

ps: I asked about it on discord before, and I met a scammer ,lol, so I wanted to post a topic on the forum. If you need to comply with certain regulations, please tell me to modify it, thank you!
