

We're excited to announce that nominations for the GMX Delegation are now open. In light of the launch of GMX's on-chain governance, we invite community members, core contributors, ecosystem projects, protocol LPs, traders, and governance experts to self-nominate themselves to become delegates.

#### Delegate Application Form

Name (organization or individual)

Wallet Address or ENS:

Tally Profile URL : (add your profile link here)

Please refer to this video before creating a Tally profile:

[Become a Delegate on GMX and Delegate to Yourself | Loom](#)

Step-by-step instructions for nominating yourself as a GMX delegate on Tally can be found [in this Google document](#)

Are you a service provider?

Yes / No

If yes, please do not apply, as we are not looking for Service Provider delegates at this time.

Instead, contact Saurabh on Telegram: @Saurabhd1

\*Do you understand that delegate incentives will not be available for the first 6-8 months? We \*

- plan to incentivize delegates once we have gathered enough data, likely in the next 8-12 \*
- months?\*

Yes / No

What area are you most interested in contributing to? choose up to two tags:

1. Defi
2. Perp DEXes
3. Infrastructure & Protocol
4. DAO Governance
5. Developer Tooling
6. Grants & Public Goods Funding

Introduction:

Please provide a brief introduction about yourself, your background, and your involvement in the crypto and DeFi space.

Motivation:

Why are you interested in becoming a delegate for GMX governance? What motivates you to actively participate in GMX governance?

Sample Voting Issues

Sample Voting Issue 1

In February 2024, a governance proposal was posted in the Uniswap Governance forums, where the Uniswap Foundation proposed a large-scale upgrade to Uniswap protocol governance to incentivize active, engaged, and thoughtful delegation. This proposed fee mechanism rewards UNI token holders who have delegated and staked their tokens. For background, Uniswap is one of the leading DEXs across all EVM ecosystems. The link to the proposal could be found here ([Link](#)).

If you were a delegate, how would you vote on the proposal?

a) Yes

b) No

Please provide a reason for your vote of yes/no to the proposal.

#### Sample Voting Issue 2

In March 2024, a governance proposal was put to a vote in the Arbitrum Governance, where Savy DAO introduced the STIP Bridge proposal. The aim of this proposal is to sustain and enhance Arbitrum's market leadership by extending support to key protocols amidst intense competition from other Layer 2 solutions. The proposal suggests that the protocols funded in the STIP and STIP Backfund should be eligible for funding requests of up to 50% of their prior funding, based on the impact created by them in STIP. Here's the link to the proposal: [Link](#)

If you were a delegate, how would you vote on the proposal?

a) Yes

b) No

Please provide a reason for your vote of yes/no to the proposal.
